DETAILED ACTION

Examiner acknowledges receipt of 12/23/05 preliminary amendment to the abstract, specification and claims which were entered into the file. Claims 30-62 are currently pending, claims 1-29 have been cancelled.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 30 - 59, drawn to a curtain coater.

Group II, claim(s) 60-62, drawn to a method of curtain coating.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups I, II and prior art Koepke et al (US patent 4,479,987 as supplied in applicant's IDS dated 5/29/07; hereafter Koepke) all possess the same technical feature namely depositing a coating via a curtain process onto a moving substrate wherein each side of the curtain is guided by a face convex crossways to the curtain (see, for example, Fig 1-7, and abstract of Koepke). Therefore the shared technical feature is common and not special, and thus there exists a lack of unity of invention *a posteriori*.

A telephone call was made to Glenn Massina on 11/09/09 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
